Break Up the Sludge!

ACMeds keeps your
AC drain line clean
the *easy* way!

ACMeds is the drain-cleaning solution of the future!

Our ACMeds unit is designed to provide a convenient and cost-effective way of protecting homeowners from the destructive nature of water backup due to mold buildup and sludge.

The ACMeds system can dispense any cleanup solution made for cleaning drain lines, such as biocides, diluted bleach, and enzymes. It is a reliable and consistent method of preventing clogged AC drain lines, especially during hot months and elevated humidity.

- Easy to Install
- Mount Anywhere
- Easy to Refill
- Window Level Indicator
- 9-Volt Battery Operated
- Reservoir has Six-Month Capacity
- LED - System On
- LED - Low Battery Indicator
- One Touch Push Button to Operate
- Keeps Drain Line Clean from Algae and Mold
- Includes Special Adapter for Quick Installation
- 20' of Tubing

With an ACMeds unit, you can benefit from insurance deductible savings. You can also lower the risk of costly water damage repairs from AC drain line clogs and black mold not covered by insurance deductibles.

Avoid the experience of a system shutdown in the heat of summer due to a backed up drain line!

ACMeds Features
